

TASKI Sprint 200 conc

Multi purpose cleaner – concentrate

E1 a

Description

Highly concentrated alcohol-based daily cleaner for streak-free cleaning of all water-resistant hard surfaces.

Key properties

- **TASKI Sprint 200 conc** is pH neutral
- **TASKI Sprint 200 conc** contains a fresh fragrance
- **TASKI Sprint 200 conc** is fast acting, fast drying
- **TASKI Sprint 200 conc** contains an effective combination of alcohol and surfactants
- **TASKI Sprint 200 conc** is versatile in it's application
- **TASKI Sprint 200 conc** is part of the unique EXACT dosing and packaging concept for accurate dosage and cost control

Benefits

- Safe to use on most water resistant hard surfaces
- Leaves a pleasant, fresh fragrance
- Dries quickly without streaking
- Very economical thanks to excellent cleaning performance at low dosages
- Suitable for use with wet mopping systems and single disc machines
- Dosing head for accurate dosage and cost control

Use instructions

Dosage:

Minimum dosage: 2 caps for 10l solution in bucket (0.2%).
Increase concentration for heavy soiling.

Spray cleaning method: 1 cap in spray bottle with 500ml water (2%)

Application:

Above floor surfaces:

Bucket method:

1. Add the product dose to a bucket filled with water, apply the solution with a cloth/sponge
2. clean the surface using a sponge pad to remove stubborn soil.

Spray method:

1. Add the product dose to the spray bottle filled with water.
2. Spray the solution on a damp cloth and wipe. On spots spray directly, leave to act and remove soiled solution. Rinse or replace the cloth regularly. Use a sponge pad to remove stubborn soil.

Floors:

Manual:

1. Add the product dose into a bucket filled with water.
2. Apply the solution with a mop and remove the soiled solution.

Machine:

1. Add the product dose into the full water tank
2. Apply the solution, scrub and remove the soiled solution.

TASKI Sprint 200 conc

Important:

Do not use on water-sensitive surfaces/materials (e.g. unsealed wood or cork). Test wash ability and material compatibility on a small, inconspicuous place before use.

Technical data

Appearance:	Clear blue liquid
Relative density (20°C):	0.97
pH value neat:	6.5 - 7.0
pH value in use:	7.4 +/- 0.5 at 0.2% concentration

The above data is typical of normal production and should not be taken as a specification.

Safe handling and storage information

Safe handling:

Full guidance on the handling and disposal of this product is provided in a separate Material Safety Data Sheet. For professional users/specialists only

Storage Information:

Store in original closed containers away from extremes of temperature.

Product compatibility

Do not use on water-sensitive surfaces/materials (e.g. unsealed wood or cork).

Environmental information

The surfactants used in this product are biodegradable in compliance with the requirement of EC Directives 73/404/EEC and 73/405/EEC and their subsequent amendments.
